- MongoDB

PROFILE SUMMARY

As a Front-End Developer with over six years of experience, I have had the opportunity to develop and launch customized, highly responsive websites and e-commerce solutions. My work has involved advanced technologies like HTML, JQuery, React.js, and Next.js, which have allowed me to build dynamic, user-friendly interfaces that drive engagement and business growth.

I consider myself a strong team player who understands the value of collaboration, open communication, and teamwork in delivering successful projects. While I am a team-oriented developer, I am particularly passionate about working remotely, where I find I can maintain productivity and focus while contributing meaningfully to a project's success.
